

# cRc 2016 Passover Supervised Products

**A note of caution:** The labeling of the Kosher for Passover status of a product, varies from product to product. Please pay attention to the notes that follow regarding what labeling

each product must bear to indicate that it is Kosher for Passover.

Since we update our information as close to Passover as possible, information included here is only accurate as of the date of publica-

tion of this guide. Please feel free to check [www.crcweb.org](http://www.crcweb.org) or contact the cRc office closer to Passover, since changes may have taken place after publication.

## Milk and Other Dairy Products

It is recommended that milk and milk products sufficient for the full 8 days of Passover should be purchased **before the holiday**, as stores may not have P-16 (meaning “Passover 2016”) on the label or container during the holiday itself. The cRc does not supervise any choc-

olate milk, yogurt, or cottage cheese for Passover. For milk and related dairy products, nearly all companies indicate Kosher for Passover status by stamping P-16 alongside the “best by” or expiration date. **Any exceptions will be noted in bold below.** We have listed the brands, along with the plant numbers where they are produced in parentheses, of the dairy products the cRc certifies

for Passover. In the case of milk, the cRc logo on the product is not necessary; as long as the correct brand, plant number, and P-16 are present, it is kosher for Passover.

All must bear P-16, **except for the following plants which have recently come under Star-K certification and will bear Star-D P instead of P-16: Plants 17-37, 17-38 and 17-135.**

### Milk

Bareman’s (17-284)  
Best Ever (17-101)  
Borden (17-37, 17-38)

\* Mizrahi Grill – 847/831/1400

\* Zelda's Kosher Gourmet – 847-647-0033

\* These companies have cRc endorsement throughout the year.

# Medicines and Cosmetics

The cRc's general guidelines on medicines, cosmetics, and toiletries can be found on page 3 of this guide. The following is a summary of the medicine portion of those guidelines:

## Medicines Guidelines

The cRc's general guidelines on medicines, cosmetics and toiletries can be found on page 3 of this guide. The following is a summary of the medicine portion of those guidelines:

- All pill medication – with or without *chametz* – that one swallows is permitted.
- Rav Schwartz, Shlit" a, has ruled that, as a rule, vitamins do not qualify as medications and are instead treated as food supplements, which require *hashgachah* for Passover. If a doctor prescribes a specific vitamin which does not have Passover supervision, please review your specific situation with your doctor and Rabbi.
- Liquid and chewable medications that may contain *chametz* should only be used under the direction of a doctor and Rabbi, who will judge the severity of the illness, the likelihood that the medicine contains *chametz*, and the possibility of substituting a swallowable pill. **Important: Do not discontinue use of liquid, chewable or any other medicine without consulting with your doctor and Rabbi.**
- Liquid and chewable medications that contain *kitnios* may be consumed by someone who is ill.
- For laws of taking medicine on *Shabbos* and *Yom Tov*, please consult your Rabbi.

## Medicine and Toiletry Details

Items marked "Possible *Chametz*" contain edible ingredients whose *chametz*-status we were unable to determine; these items may be permitted for someone who is seriously ill, and consumers should consult with their Rabbi.
