

cRc 2017 Passover Supervised Products

A note of caution: The labeling of the Kosher for Passover status of a product, varies from product to product. Please pay attention to the notes that follow regarding what labeling

each product must bear to indicate that it is Kosher for Passover.

Since we update our information as close to Passover as possible, information included here is only accurate as of the date of publica-

tion of this guide. Please feel free to check www.crcweb.org or contact the cRc office closer to Passover, since changes may have taken place after publication.

Milk and Other Dairy Products

It is recommended that milk and milk products sufficient for the full 8 days of Passover should be purchased **before the holiday**, as stores may not have P-17 (meaning “Passover 2017”) on the label

or container during the holiday itself. The cRc does not supervise any chocolate milk, yogurt, or cottage cheese for Passover. For milk and related dairy products, nearly all companies indicate Kosher for Passover status by stamping P-17 alongside the “best by” or expiration date. **Any exceptions will be noted in bold below.** We have listed

the brands, along with the plant numbers where they are produced in parentheses, of the dairy products the cRc certifies for Passover. In the case of milk, the cRc logo on the product is not necessary; as long as the correct brand, plant number, and P-17 are present, it is kosher for Passover.

Milk

All must bear P-17, **except for the following plants which have recently come under Star-K certification and will bear Star-D P instead of P-17: Plants 17-37, 17-38 and 17-135. Plant 17-220 will bear SDP.**

Bareman’s (17-284)

Best Ever (17-101)

Borden (17-37, 17-38)
