

Dunkin Donuts Drink List

October 2026

This is a list of drinks served at any Dunkin Donuts in the USA, and the status of each drink. The food in Dunkin Donuts is assumed to be NON-KOSHER unless the entire store is under reliable hechsher. Every drink is kosher (as opposed to the food), but drinks are D (Dairy, non-Cholov Yisroel), DE (Dairy Equipment) or Pareve. The milk in Dunkin Donuts is assumed to be NOT Cholov Yisroel.

The status refers to the drink with nothing added to it. The use of oat milk/almond milk changes the status to DE.

The use of regular milk changes the status to D.

This list should only be used until October 2027.
