# The Yoshon Network Inc. Product Manual

Welcome to our TYNI Manual, an extension of Yoshon.com's information in cooperation with many of the major *Kashrus* Agencies and Association of Kashrus Organizations (AKO).

The TYNI Product Manual is dedicated in memory of Rabbi Yosef Herman zt"l, who for decades singlehandedly researched and publicized the importance of this great *mitzvah*. May all of our work be a *zechus* for his *neshomo*.

We would like to thank the following agencies for contributing their product information and offering guidance: cRc (Chicago Rabbinical Council), CRC/Hisachdus (Central Rabbinical Congress), COR of Canada, Five Towns Vaad, Kehilla Kashrus of Flatbush, Kof-K, Lancaster Kosher, MK/Montreal Kosher, OK, OU, STAR-K, Rav Teitelbaum/Nirbater Rav, VHQ/Vaad HaRabbonim of Queens, Volover Kosher, and Rav Weissmandl/Nitra, for their invaluable assistance.

The information in the *TYNI Product Manual* gets updated shortly after the [Yoshon.com](https://www.yoshon.com) website.

Items that had their date or status changed from the previous version will have an Asterisk (\*) in front of it.

**PRODUCT LISTINGS**: Displays the **BRAND**, **Product Name**: (**Country of Origin** if relevant); Flavor, size, or plant (if applicable); **Status/Date Code Cutoff** (with shelf life); Important notes; **Grain Ingredient**; and **hechsher** on the package.

**BRAND and Product Names**. Names having numbers would go by the first letter spelled out. ("24/6" would be under "T" for "Twenty-Four/Six"). Store brands would go by the store that sold it. ("Great Value" would be under "Walmart: Great Value".) Products with more than one type or flavor will be shown in UPPERCASE.

**Status or Date Codes**: Status is either *Yoshon* (sometimes with caveats), or *Chodosh*. Products with no status go by a Date Code, consisting of a Best By date or Lot Code. These are based on the cutoff date of the grain ingredient. The grain cutoff dates change every year. **The date on your package must be on or before our listed Date Code**. For Julian dates, look for the number listed or lower. (See the Julian Date Charts on the next page for reference.)

We try to give the same format as is on the package, but some plants may have different formats. Date codes can be given as manufacturing/production dates in regular or Julian code, or Best By dates if we have the shelf-life information.

**Grain Ingredients**: Listed as follows: **ANY**=Status pertains to products containing any of the five grains, most often for Bakeries; **B**=Barley; **BW**=Bulgur Wheat (winter crop); **M**=Malt (aka Barley Malt); **MBF**=Malted Barley Flour; **NPI**=No Problematic Ingredients; **O**=Oats; **OF**=Oat Fiber (not problematic); **DW**=Durum Wheat, (Pasta, Couscous); **R**=Rye; **S**=Spelt; and **W**=Wheat (If known, are further classified as **SW**=Spring Wheat, or **WW**=Winter Wheat); **WS**=Wheat Starch.

**Wheat Types**: All other types of Wheat and Wheat Products including Einkorn, Emmer, Farro, Freekeh, Kamut, Khorosan, Triticale (Wheat/Rye hybrid), Wheat Bran and Wheat Germ are in the Wheat category, going by the general Wheat date.

**Multi-Grains**: Products having multiple grain types will be listed as such, for example, Wheat and Malt = W/M. Products containing multiple grains will always go by the earliest grain's cutoff date. The earliest grain type can change every year.

**Hashgacha**: Lists the *hechsher* on the product. A product's status may be dependent on having a specific *hechsher*.

#### Hechsherim on Items Made in the USA

*Hechsherim* on items made in the USA must have the word "Yoshon" in either English, or (" יושן ") in Hebrew, or have the phrase "ללא חשש חדש" printed on the package, in order to be considered yoshon. If this label is not present, products may be determined to be yoshon from the lot or date codes stamped on the package, and compared to the entries on Yoshon.com.
