The Yoshon Network Inc. Product Manual

Welcome to our TYNI Manual, an extension of Yoshon.com's information in cooperation with many of the major *Kashrus* Agencies and the *Kashrus Agencies Yoshon Committee*.

The TYNI Product Manual is dedicated in memory of Rabbi Yosef Herman zt"l, who for decades singlehandedly researched and publicized the importance of this great *mitzvah*. May all of our work be a *zechus* for his *neshomo*.

We would like to thank the following agencies for contributing their product information and offering guidance: cRc (Chicago Rabbinical Council), CRC/Hisachdus (Central Rabbinical Congress), COR of Canada, Five Towns Vaad, Kehilla Kashrus of Flatbush, Kof-K, Lancaster Kosher, MK/Montreal Kosher, OK, OU, STAR-K, Rav Teitelbaum/Nirbater Rav, VHQ/Vaad HaRabbonim of Queens, Volover Kosher, and Rav Weissmandl/Nitra, for their invaluable assistance.

The information in the *TYNI Product Manual* gets updated shortly after the Yoshon.com website.

Items that had their date or status changed from the previous version will have an Asterisk (*) in front of it.

YOSHON PRODUCT LIST: Displays the **BRAND**, **Product Name**: (**Country of Origin** if relevant); Flavor, size, or plant (if applicable); **Status/Date Code Cutoff** (with shelf life).

BRAND and Product Names. Names having numbers would go by the first letter spelled out. ("24/6" would be under "T" for "Twenty-Four/Six"). Store brands would go by the store that sold it. ("Great Value" would be under "Walmart: Great Value".) Products with more than one type or flavor will be shown in UPPERCASE.

Status or Date Codes: Status is either *Yoshon* (sometimes with caveats), or *Chodosh*. Products with no status go by a Date Code, consisting of a Best By date or Lot Code. These are based on the cutoff date of the grain ingredient. The grain cutoff dates change every year. **The date on your package must be *on or before* our listed Date Code**. For Julian dates, look for the number listed or lower. (See the Julian Date Charts on the next page for reference.)

We try to give the same format as is on the package, but some plants may have different formats. Date codes can be given as manufacturing/production dates in regular or Julian code, or Best By dates if we have the shelf-life information.

Hashgacha: Lists the *hechsher* on the product. A product's status may be dependent on having a specific *hechsher*.

UPDATED: **October 08, 2026**

The following Kemach products that <u>are marked YOSHON on the packaging</u> do not present any Chodosh problems that would necessitate looking for code dates.

- **All Kemach Flour** (All Purpose, High Gluten, & Whole Wheat - any size)
- **Matzos & Matzo Meal** (All Kinds including Spelt)
- **Matzo Ball Mix**
- **Crispy Bake**

The following products have the <u>possibility</u> of being Chodosh at some point during the season. It is therefore necessary to look at code dates and labels. <u>Any changes in Yoshon status or projections of a Chodosh production will be updated on the website.</u>

- **Noodles** (Heimishe Egg Noodles) in the consumer packages are still **YOSHON (**and should be until at least the end of 2026). Most recent code: EXPIRES 09-15-27 (will also say: YOSHON on most packages).

- **Thin Wheat Crackers**: All inventory is Yoshon.

<u>Cereal:</u>

Our cereals have an open code dated 1 year after manufacturing. ("BEST IF USED BY:……")
