

SUPPLEMENTS, INFANT FORMULAS, & MILK SUBSTITUTES – PESACH 2021

The OU has researched the following nutritional supplements, infant formulas, and milk substitutes and has determined that they are respectively suitable for someone who is infirm (*choleh she'ain bo sakanah*) and for infants, when bearing the OU logo, unless otherwise stated below.

Most of these products contain *kitnios*, and for some that is the primary ingredient. Products that contain flavors should only be provided when no unflavored alternative exists. With the exception of the flavors used, any item which might be *chametz*-based is used in such small proportions that it is *batel b'shishim* (nullified). Where possible, it is preferred to (a) use a substitute which is certified for *Pesach*, and (b) use a liquid supplement instead of a powdered one.

MEDICAL NUTRITIONAL SUPPLEMENTS*

Products with an asterisk (*) contain oat fiber that is not *chametz*.
