

MILK SUBSTITUTES, NUTRITIONAL SUPPLEMENTS, AND INFANT FORMULAS

The OU has researched the following milk substitutes, nutritional supplements, and infant formulas, and has determined that they are respectively suitable for someone who is infirm (*choleh she'ain bo sakanah*) and for infants, when bearing the OU logo.

Most of these products contain *kitniyos*, and for some that is the primary ingredient. Accordingly, consumers should consult with their rabbi before deciding to use these items which are not fully kosher for Pesach. With the exception of the flavors used, any item which might be *chametz*-based is used in such small proportions that it is *batel b'shishim* (nullified). Where possible, it is preferred to (a) use a substitute which is certified for Pesach, and (b) use a liquid supplement instead of a powdered one. Products should be purchased before Pesach and be maintained segregated from kosher for Pesach foods.
