## לעילוי נשמות

אבי מורי ר' יהושע בן ר' משה ע"ה

ואמי מורתי בריינדל בת ר' יקותיאל הלוי ע"ה

קונטרס זה מוקדש ברגשי תודה עמוקים למרן ראש הישיבה מרנו ורבנו, הרב הגאון יעקב קמנצקי זצוק"ל. אשר האיר את עינינו והדריכנו בכל שטחי חיינו וענפיהם. קונטרס זה לא היה יוצא לאור ולא היה בר-קימא בלי עצתו הטובה ועודדו התמדי.

כמו-כן מוקדש הקונטרס לזכר נשמת מורנו ורבנו, הגאון מרן הרב משה פיינשטיין זצוק"ל אשר עצתו והכונתו סייעו לסדרו.

Note: The above dedication to Reb Yaakov ZT"L and Reb Moshe ZT"L is an expression of gratitude for the support and advice that they gave to the publication of this Guide. It should not imply that they gave any haskomo to this Guide or that they paskened that everyone must avoid eating all foods that the Guide labels "Chodosh".

בלב קרוע ומורתח מקדישים אנו קונטרס זה לעילוי נשמת מחברו הדגול אבינו מורנו עטרת ראשנו רבי יוסף ב"ר יהושע הערמאן זצ"ל אשר טרח ועמל לזכות את הרבים בצורה נפלאה למעלה מארבעים שנה. לא יאומן כי יסופר כמה יגיעות יגע וכמה עמל השקיע בזה במסירות ונאמנות ואחריות גדולה עד יומו האחרון.

דומה כי ניתן לומר שמבצעו הכביר בענין חדש היה בבחי' 'שמא קגרים', כי היה תמיד מלא התחדשות ורעננות הן בעבודת בוראו הפרטית והן בזיכוי הרבים, ונוסף לרוב עסקו לזכות את הרבים בזהירות מאיסור חדש היו עוד כמה ענינים בהם זיכה את הרבים מתוך הרגשת אחריות ואדיר חפצו להגדיל כבוד שמים.

בקשתנו שטוחה מכל הנהגה מיגיעו של אבינו המחבר זצ"ל שיואיל לגמול לו חסד ולעשות לטובת ולעילוי נשמתו ע"י חיקוי דרכיו בהתחדשות מתמדת בעבודת ה', זיכוי הרבים והרבות כבוד שמים - ובשומו אל לבו הלקח הגדול שהנחילנו שאין דבר טוב שא"א להשיגו ע"י רצון ועבודה מתמדת בעמל ובהשקעה... וודאי שהלומד מדרכיו ועושה כן, או הלומד משניות לעילוי נשמתו הינו מראה בזה כלפיו 'הכרת הטוב' עצומה.

יה"ר שהקונטרס והחזיוקים יהיו לעילוי נשמתו ושנוזכה לראות בקרוב בקיום היעוד 'הקיצו וירננו שוכני עפר'.

המשפחה

The *olam HaTorah* knows of the great work of our father, Rav Yoseph Herman, *zt"l*, who toiled for over forty years to make observance of *hilchos yoshon* a reality. In his research, his writing, and his constant availability to answer questions in real time, our father was the public face of the Guide to Chodosh.

What the public never saw, however, was the *briach hatichon*, the central supporting beam, that created the framework that enabled all of his great efforts.

That was our mother, Maras Kreisel Kreindel Atara bas Rav Shraga Tzvi, *aleha hashalom*. She crafted a home of light and beauty and joy, a home infused with fervent *ahavas haTorah*. Her relationship with Hashem was palpable and personal; even as she trembled before Him, she never hesitated to demand from Him every manner of *bracha* for her beloved family and for *Klal Yisroel*.

Her respect for our father emanated from the deepest levels of her *neshama*. She took care of every mundane task so that nothing would impede his holy work, and her moral support gave him the strength and confidence to face the world each day and conquer the mountains he set out to climb.

May the mitzvos generated by this Guide serve as an everlasting *zechus* and *aliyah* for her *neshama* in Gan Eden, where she stands alongside our father for all eternity.

## PREFACE

### CHANGES TO PROJECT CHODOSH

As Project Chodosh moves on, under the leadership of Moshe Herman, R' Yoseph Herman's son, the changes made last year will be continued.

The guide is continuing and building on the work and research of Rabbi Herman Z"l. His signature is visible on every page as his work continues to guide us.

### TEXTING SERVICE

The guide is now answering questions via text message. Questions can be texted to 914-522-0096. We hope to answer all questions by text each evening, Sunday-Wednesday, and BE" H Thursday as well, as much as possible. DO NOT call this number with questions.

### CHODOSH HOT LINE

**If you have questions DO NOT CALL the home telephones of M. Herman or C. Roskamm. Instead DO CALL THE CHODOSH HOT LINE at 718-305-5133, 24 hours per day.**

The Chodosh hotline will be operational with questions being answered once a week, on Sunday or Monday from Rosh Chodesh Elul until Pesach. This may change based on need.

### THE GUIDE'S FORMAT

The Guide now consists of three principle sections: Section 4.1-Alphabetical listing of packaged foods, Section 4.2 -Alphabetical listing of establishments and services, and Section 4.3 - Subject index. Sections 1-3 have been left out of the preliminary guide and will be printed in the main guide.

Section 4.1 lists items by company name, including all items made by that company for which we have Chodosh-related information. For example, under Kemach are listed all products such as ice cream cones, noodles, cereals, flour, pie crusts, etc. If any company or food items is not listed, it means that we have no information about that company or item. If that item is supposed to be under hashgocho for Yoshon and it does not have a Yoshon label, it means that the mashgiach had not supplied relevant information to the Guide in time to be printed in the Guide. In such cases, we suggest that you contact the mashgiach directly for updates.

Section 4.2 is a similar alphabetical listing of all establishments and services, organized by city. For example, under New York City are listed all bakeries, pizza shops, catering services, restaurants, etc., anywhere in the New York City area, all in alphabetical order by the name of the establishment.

Section 4.3 is a subject index. For example, if one is interested in knowing which cereals may be Yoshon, he would check under "Cereals". That provides all companies listed in the Guide, the  $\aleph$ ,  $\beth$ ,  $\daleth$  categories that are available, and the page number of Section 4.1 where they may be found. For the details you would have to turn to that page. Note that the subject index of Section 3 only references the list of packaged foods in Section 4.1.

### An Appeal for Donations

The Guide to Chodosh is a non-profit project (tax-deductible, Tax ID 45-447-5432), dedicated to the gathering and dissemination of Chodosh-Yoshon information of practical value to the consumer. Our expenses include printing, telephone and fax related charges, and the salaries of part-time helpers who

make the Guide possible. Most, but not all of these costs are covered by the paid subscriptions. However, donations would be appreciated to cover the balance of our budget. Tax deductible payments may be made by check to “Project Chodosh” and be mailed to Project Chodosh, c/o Rosskamm, 963 Armstrong Ave. Staten Island, NY 10308. Alternatively, call our Guide order phone number, 646-278-1189. Record your name and credit card number as requested. Be sure to specify that your call is to make a donation and the amount of the donation.

### A Note Regarding Hashgochos for Yoshon

We have made several attempts to notify all mashgichim and hashgocho organizations who have in the past been involved in supervising Yoshon. We emphasized to them that all of their hashgocho information must have been received by us by Aug 10 '21 to be included in the Preliminary Guide and by Nov 1 '21 to be included in the final Guide. We apologize, but due to the time constraints on our staff, we need to enforce these dates. If the foods of interest to you that have been under hashgocho for Yoshon in the past are not included in our Guides, we suggest that you contact the responsible mashgichim directly for updates.

### WHY THIS PUBLICATION?

This Preliminary Guide announces the start of the Chodosh season and, hopefully, provides enough starting information to help the Yoshon consumer get started. We hope to publish the full Guide, after the mashgichim and other sources have provided sufficient information, approximately in November. Thus, this is only intended as a stop-gap until the full issue is ready. As such, this publication covers only those products and establishments for which we already have sufficient information. It is also missing the usual full introductory sections which will be included later with the full Guide to Chodosh.

### HOW TO CONTACT THE GUIDE TO CHODOSH

To contact the Guide with questions and comments there are two principle options:

- (1) Call the Hot Line at 718-305-5133.
- (2) Send email to [yherman20@gmail.com](mailto:yherman20@gmail.com)

### WHEN DID CHODOSH START?

We expect the Chodosh grain started to appear in products as follows:

- 1) **Freshly baked items using spring wheat**, including breads, challahs, bagels, rolls, pizza and some cakes and cookies may be Chodosh in the Midwest after the packaging date of July 30. Elsewhere in the US, this date would be August 10.
- 2) **Packaged foods from spring wheat** may be Chodosh after the PACKING date of July 30.
- 3) **Noodles and pasta** may be Chodosh after the PACKING date of Aug 13.
- 4) **Barley**, such as pearled barley, may be Chodosh after the PACKING date of August 3.
- 5) **Oats**: Oats in all products, including cereals, may be Chodosh starting with a PACKING date of July 23. An exception is the oats in General Mills and Post cereals that may be Chodosh starting with a packing date of Sept 15.

6) **Barley malt** (also listed in the ingredients as “malt”) may be Chodosh as of the packing date of **Dec 15**. Package codes should be checked after the purchase date of **Dec 15** for **beer** made from barley malt and **Mar 15** for malt in other products.

#### Dating Codes Explained:

There are 2 main types of date codes used in the guide.

- Open codes consist of a month day and year. This can be in letters or numbers, with or without abbreviations. Examples include September 25, 2020, Sept. 25, 2020, Sept 25, 20. Open codes can also use numerals such as 09/25/2020 or 09252020, 092520
- Julian codes are a series of numbers that represent the day of the year. January 1 is 001, the next day is 002 and so forth until December 31, which is 365. The year is represented by the numbers 0-9 which is the last digit of the year. 2020 would be 0, 2021 would be 1. The year can be before or after the day.

#### **GENERAL GUIDELINES**

- All items made in Israel under a reliable kashrus hashgocho are Yoshon. Also included are items under the hashgocho of the Badatz Eida HaChareidus of Yerushalayim, even if made outside of Israel.
- All packaged goods with Yoshon printed on the label and a reliable Kashrus hashgocho are Yoshon.

Sections 1-3 as well as the introductory sections about the Mitzvah of Chodosh have been omitted from this preliminary guide and will be included in the main guide.

**I Baker's Yeast**, whether for home or bakery use are not known to have any Chodosh problems.

⚠ **Baker's Harvest Graham Crackers and saltines**, Chodosh code: Jan 30, 2022. (6 months after packing).

**I Baking Flour** Note: Almost all baking flour contains a small amount of barley malt, as noted in the list of ingredients on the package. According to the poskim we have consulted barley malt in baking flour (but not in other applications) is botul and the mixture may be used even if the malt would be Chodosh. However, since some poskim may disagree with this psak, we will provide dating codes for those who want to avoid malt in flour that may be Chodosh. Note that malt is not a problem until a packing date of Dec 15. (See below, Barley Malt)

⚠ **Barbara Cereals:** High Fiber Original and High Fiber Ultimate Flax and Granola, Morning Oat Crunch – all varieties, and Multigrain Puffins: for oats, July 23, 2022 ( 1 year) and for wheat, Jul 30, 2022. Puffins Original: May 30 22 (10 months).

⚠ **Barilla Pastas:** The codes for different pastas are as follows: Protein Plus Pasta which contains oats and barley: code July 23, 2022 (1 year after packing). Whole Grain Pasta code Feb 13, 2023 (18 months after packing.). Oven ready lasagna Code: April 13, 2023 (20 months) Straight Semolina Pasta, Penne Pasta and Orzo code April 13, 2024 (32 months).

**I Barley Malt and Malt** are used interchangeably among the list of ingredients of packaged foods. Unless specified otherwise, whenever a list of ingredients mentions “malt” it is malt produced from barley. Based on many years of experience, we will use Dec 15 as the Chodosh packing date for malt, unless indicated otherwise. Where the package code is not known, we estimate that for all products using malt if they are purchased before March 15, the malt will probably still be Yoshon. An exception is beer, see below.

The following applications of malt pose a problem of Chodosh. Malt is used for several purposes. Check with your Rav or posek on whether foods using malt for flavoring or coloring may or may not be used if they are made from Chodosh barley. Such malt may be Chodosh if purchased after March 15.

*κ=Yoshon with hashgocho, no checking of codes; ρ=Yoshon with hashgocho must check details; τ=No hashgocho, check codes; η=Chodosh; ο=sofek, uncertain I=Information*

Applications of malt for flavoring or coloring include cereals flavored with malt such as Corn Flakes and Rice Crispies. Beer is also included in the category of items which are Chodosh because of malt.

We have received psak halochos many years ago from Harav Hagoan Yaakov Kaminetzky ZT”L and others that baking flour that lists barley malt in the ingredients does not pose a Chodosh problem, because in this application only, the malt is botul. (We have included dating codes for some baking flour for those who do not want to rely on this psak that this malt may be used. Email yherman40@gmail.com for details of this psak.)

To summarize: malt produced after Dec 15 may be Chodosh. Some poskim allow such malt to be used in baking flour. Many poskim do not allow such Chodosh malt when used for flavoring and coloring, such as in cereals, cookies and pretzels. Consult your own posek for guidance. This Guide will note when such malt may become Chodosh and provide dating codes if applicable and available.

⌘ **Barth's Kimmel cookies** are from Israel and are Yoshon. Under the hashgocho of Chug Chasam Sofer.

⌘ **Bartenura Gnocchi** is Yoshon under the Hashgocho of Rabbi Weissmandl.

⌘ **Bay State Bouncer Flour** has a Chodosh code of AA073021 (Production date).

⌘ **Bear Naked Granola** has a code of July 23, 2022 (12 months after packing).

⌘ **Beechnut Baby Food** boxes and jars are marked with a date and a code. Look only at the top code, at the first 4 digits. For oats the Chodosh Code is 1723 (1-year, 7-July, 23-day), for wheat the code for July 30 is 1730. NOTE: Many Beechnut products are no longer kosher. Please check.

⌘ **Beer** made from barley malt, if the dating code is known, it may be Chodosh if packed on Nov.15 or later. If the code is not given in the Guide you should try to call the company to find out what is the dating code for Nov. 15. If the dating code is not known, then beer purchased after Dec 15 should be assumed to be Chodosh. (As stated above we recommend that for items containing malt it can be assumed that the malt in packages on the store shelves is Yoshon up to a purchase date of March. 15. However, since some beers have a manufacturer’s recommended shelf life of only 4 months, we have revised the purchase cutoff date for beers to Dec. 15, unless dating codes are known and it can be determined that the beer was packed before Nov 15.) Note that the above applies only to Beer made from Barley Malt and NOT TO BEER MADE FROM WHEAT!

⌘ **Beigel’s Cookies**, Yoshon only with Yoshon label under the hashgocho of the O-K LABS and the CRC. Cookies sold individually from big boxes in stores are yoshon as well.

⌘ **Bella’s Baked Goods** are Yoshon with OK Hashgocho and Yoshon on the label.

⌘ **Ben and Jerry's Ice Cream:** Cookies and Cream, Vanilla Crunch, Chocolate Crunch and any other flavor with wheat, have a Chodosh code of Jan3023 (18 months after packing).

⌘ **BenZ’s Parve Kishke** is Yoshon under the Hashgocho of the Star K with a Yoshon label only.

Please check before purchasing.**

**I Professional Bakery Flour** and other bakery ingredients Yoshon flour used by Yoshon bakeries, pizza shops and such for bread, challahs, rolls, coffee cake, pizza, etc. has been available one of three ways:

1. Yoshon wheat has been stored in separate silos, along the silos of Chodosh wheat. The Yoshon wheat has been sealed by the O-U and is only opened and ground into flour under the supervision of the O-U mashgiach. This Yoshon wheat would be milled each week and was shipped directly to the distributors and bakeries without the need to store flour before shipment. Therefore, this Yoshon flour has the same freedom from worms that the freshly ground flour has all year around. (This freshly ground flour has been only available in large 50 and 100-pound bags sold to bakeries. It was not sold to consumers.)

*κ=Yoshon with hashgocho, no checking of codes; ⚡=Yoshon with hashgocho must check details; ⚠=No hashgocho, check codes; n=Chodosh; o=sofek, uncertain I=Information*

2. Flour made from winter wheat, which is always Yoshon and is freshly ground. Since such flour does not have a high enough protein level, the protein is increased by adding winter-wheat derived vital wheat gluten or some stored, Yoshon spring wheat. This year, once more, a version of this type of Yoshon flour is being produced under the hashgocho of the Kof-K.

3. The third approach is the one that was most often used in the past years and is still being used. The flour is produced at the end of the summer before the Chodosh wheat enters the mill. It is then stored and used on an ongoing basis until Pesach. If this flour is stored in cold storage, then the problem of worms developing in the flour is virtually zero.

⚠ **Publix Pasta** has a Chodosh code of Aug 13, 2023. (2 years after packing)

⚠ **Publix Flour** has a Chodosh code of April 26, 2022 (270 days after packing).

⚠ **Publix Cereals** containing oats have a code of July 23, 2022. (52 weeks after packing) Those containing wheat, but no oats have a code of July 30, 2022. Those which have only malt have a code of Dec 14, 2022.

⚠ **Publix Waffles** have a code of July 30, 2022 (1 year after packing) Multigrain waffles contain oats and have a code of Jul 23, 2022. French Fries has a code of Jan 21, 2023 (540 days after packing).

⚠ **Puratos Bagel Improver** is a dough conditioner that is used by several bagel shops. Even though the company may claim that it is made from winter wheat, the Kof-K that provides the hashgocho for this product will not certify that claim. Therefore, as of a packaging date of July 30, this item may be Chodosh. The code 03302### (03=month, 30=day, 2=year, ### not important.) This date is 8 months after packing. Yoshon stored supplies of this item are available from Velenti Co. 718-565-1300 speak to Bob Cory. Please check with your local bagel shops. Many may not be aware of the fact that this or other dough conditioners may be Chodosh!

⚠ **Quaker Oats Co. Barley** Chodosh code is Jan 25 2023 (540 days after packing).

⚠ **Quaker Cereals** (same for Mothers) come in a great variety. Because of the large amount of data, you need to take a multi-step process to find the Chodosh code.

(NOTES: All of this information also is valid for USA packed cereals sold in Israel. Quaker oats cereals made in England and sold in Israel and Europe are Yoshon under the hashgocho of the London Federation of Synagogues when bearing the KF symbol. [Note: Some people in Israel use the term “Quaker” to refer to all hot oats cereals that need to be cooked. In this Guide, the term Quaker is used to refer only to all products made by the Quaker Company, including cereals eaten with cold milk.] Dates given here do not apply to Quaker cereals sold in Canada. For cereals made in Canada and sold in the USA there is a special mention in the Quaker table. Also, hot and cold oat bran have different dates. Single serving packages of hot cereals have the same codes as the large packages.)

For Quaker cereals packed in the USA, the wheat may be Chodosh with a starting date of July 30th. Whole grain barley (not barley malt) may be Chodosh if packed August 3 or later. The oats may be Chodosh starting with the packing date of July 23. To help you translate these packing dates to the “best if used by” or shelf life dates on the packages, use the following system:

Steps to check for Quaker cereals:

1 Check the ingredients to see if they contain oats, wheat, barley, or barley malt.

*κ=Yoshon with hashgocho, no checking of codes; ρ=Yoshon with hashgocho must check details; τ=No hashgocho, check codes; η=Chodosh; ο=sofek, uncertain I=Information*

2 Find the name of your cereal in the “Shelf-life” list below.

3 Then choose the earliest of the dates and the appropriate Chodosh package code from the Quaker table given here.

**I SOY, TERRIAKI AND TAMARI SAUCES** Summary: It would seem that soy, terriaki and tamari sauces that have wheat in the ingredients may be Chodosh. In fact, these are surely Yoshon at least up to the packing date of Dec 30 (5 months after July 30, the Chodosh date for wheat) and may be free of Chodosh problems completely. Even if one wants to be machmir on the Dec 30 packing date, whatever you find on the grocery shelves until at least mid February should still probably be all Yoshon.

Details: After being alerted by some mashgichim, we discussed the method of production of these sauces with expert chemists who actually produce them. Here is what we learned:

- All these sauces that contain wheat are fermented over a period of time that is 5 months or longer. All sauces that are produced in a shorter time do not contain any wheat.
- The flour when used may be from spring wheat that may be Chodosh.
- In the production of the fermented soy sauce, wheat flour and some spores are added at the same time to start the fermentation. The spores produce the fermentation, the wheat flour is added only to allow the spores to be more evenly distributed in the liquid and to do a better job. The wheat flour, which at the start is about 7% of the starting volume, is almost completely consumed during the fermentation.
- Terriaki sauce is produced the same way, except they start with only about 3.5% wheat.
- Tamari sauce uses much less wheat. From a halachic point of view, this production method seems identical to the question we raised many years ago regarding plain white household vinegar. The vinegar is produced from non-Chodosh alcohol. There, some barley malt plus other chemicals are used in combination to cause the alcohol to ferment into vinegar. In the process, the malt is virtually eliminated (much less than 1/60.). There we consulted several poskim who all ruled that the barley malt is botul. Based on that we believe that in the case of these sauces, as well, the wheat flour may be botul. Please consult your own posek regarding the question of bitul. However, since it takes at least 5 months to complete the fermentation of these sauces, there cannot be any Chodosh problem before Dec 30, 2021 in any case.

⚠ **Universal Frozen Foods** under the Delectable Gourmet and Kosher'US Labels Yoshon under the CRC-Hisachdus.

**I USA SPELT PRODUCTS NOT CHODOSH:** There should be no Chodosh problem at all with spelt products produced in the USA based on the following facts:

1. The spelt s in the USA is always a winter crop and is Yoshon.
2. About 80% of the spelt grown in Canada is a winter crop, only about 20% is a spring crop that may be Chodosh. Most of the spelt in Canada is grown in Ontario, which is on the eastern part of Canada. This spelt is almost 100% winter crop. The climate in Ontario can support either winter or spring crops. However the winter crops usually yield a much bigger harvest. So Ontario will only produce a spring spelt under the rare occurrence of a failure of the winter crop. Factories that use spelt that are in the eastern half of the USA would most likely use either USA grown spelt or the spelt that comes from the nearby Canadian region of Ontario. In either case, this would be a winter crop. The 20% spring spelt is grown in Western Canada. Therefore, our conclusion that the spelt used in products made in the USA can be assumed to be free from Chodosh problems is based on the following. As always, for halacha, check with your own Rav or Posek.

1. It is quite likely that spelt products made in the USA should use locally grown spelt that is Yoshon.

2. Even if they use Canadian spelt, 80% of that is a winter crop and is Yoshon.

3. In the eastern part of the USA, it is probable that much more than 80% of the imported Canadian spelt should be Yoshon. This is because Ontario which is in the east part of Canada basically produces only winter spelt. The spring spelt is produced in Western Canada almost exclusively.

4. Even if the Canadian spelt should be a spring crop, it may be last year's and would be Yoshon. We would like to thank Rabbi Norman of the COR in Toronto and Rabbi Jaffee of the kashrus organization in Montreal who pointed out that our assumptions about Canadian spelt being mostly Chodosh may not be correct. We were able to confirm their information independently from industry and university sources.

**I WHEAT STARCH:** Wheat starch is used in many cereals, some cookies and other products. In the past we assumed that wheat starch can be made from spring wheat as well as winter wheat. Therefore, we advised that one should be machmir and assume that starting with a packing date shortly after the start of the spring wheat harvest, all wheat starch may be Chodosh. This is still advisable lechatchila when possible. Since wheat starch is used in so many products and in so many ways, that it is often not possible to be certain that the wheat starch is vadai Yoshon. When such certainty is not possible, we were advised that it is permitted to be maikil and assume that all wheat starch is Yoshon. This assumption is based on the following arguments:

(1) There is no advantage in making wheat starch from spring wheat over winter wheat.

(2) About 70% of all wheat grown in the USA is winter wheat. This makes winter wheat certainly the rove of all wheat available. (However, this winter wheat cannot be used by bakeries for breads, challahs and many other products. Those need spring wheat flour.) It also makes winter wheat cheaper.

(3) We apply the sfek sfeika of the Rema since the wheat starch could be from last year. Even if it were freshly manufactured, it is more likely to come from winter wheat which is Yoshon. We consulted the following Rabbonim Shlita who agreed that since it is not possible to clarify the matter beyond what is written above, that it is justified to be makil on wheat starch. (Names in alphabetical order) Harav Hagoan Yisroel Belsky ZT”L, Harav Hagoan Moshe Heinemann Shlita, Harav Hagoan Shmuel Kaminezky Shlita and Harav Hagoan Shlomo Miller, Shlita. This will be the policy of the Guide. For those who wish to be machmir, the chumra packing date for wheat starch would be July 30, 2021. As always, consult your own Rav or posek.

## Section 4.2. ESTABLISHMENTS AND SERVICES

Please note that many Hashgochos did not submitted their information. Therefore, many listings are missing. See preface for more information.

**DISCLAIMER:** The Guide to Chodosh does not give hashgochos for kashrus or Yoshon. The listing of any facility in this Guide does not mean that we investigated its kashrus. For kashrus and Yoshon assurance, look for the certification by responsible kashrus organizations or individual mashgichim.

**WARNING:** One time it was found that a bagel bakery was making regular bagels from Yoshon flour and whole wheat bagels from Chodosh flour. Bagels have to be cooked before baking. It was found that the Yoshon bagels were being cooked in the same utensils that were being used each day to cook the Chodosh whole wheat bagels. The problems at this bakery were corrected, under the guidance of the responsible hashgocho organization. However, there is no guarantee that such problems were unique to this bakery alone. Mashgichim and consumers who deal with bagel bakeries making both Yoshon and Chodosh bagels must make sure that the same boiler is not used for both.

**SPICY FRIES WARNING:** Many restaurants, pizza shops and similar establishments offer fried foods. The menu of fried foods includes fried potatoes. Many of the “spicy fries” and some of the regular french-fried potatoes contain flour that may be Chodosh. The same oil is used to fry other items including falafel balls. Ask you posek or Rav whether those careful about Yoshon are allowed to eat these other fried foods that are inherently not Chodosh but are fried in the same oil as the fries that contain possibly Chodosh flour. It should be noted that many such establishments have double fryers. This means that the pot of oil may have two baskets immersed in it at the same time. So therefore, it is possible that the questionable fried potatoes and the other non-Chodosh item share the same oil at the same time. Unless certified otherwise, all fried items have this suspicion. We thank Kehilah Kashrus for originally pointing out this problem.

**WARNING:** Some tuna fish and tuna fish salads used in restaurants contain bread crumbs or flour. Care must be taken to make sure that such ingredients are Yoshon.

## 4.2.18 Israel

### Food exported by Israel

Food produced in Israel under hashgochos considered reliable for kashrus are also always Yoshon. In addition, all items produced under the hashgocho of the Badatz of Yerushalayim are also always Yoshon, even if they are packed outside of Israel.

### Food imported to Israel

Many of the American-brand-name food items that are sold in Israel and other countries are produced under contract outside of the USA. The information printed in this Guide should not be assumed to apply to any food items purchased outside of the USA, unless you have a clear indication that that item was indeed produced in the USA. This Guide cannot vouch for the relevance of information printed in the Guide for such items produced in other countries.

**⌘ Kedassia, London.** Everything with this hashgocho on it Yoshon everywhere in the world.

**⌘ Kelloggs Cereals** manufactured in Europe and sold in Israel and Europe are Yoshon under the Hashgocho of the Manchester Beis Din, besides for the Kelloggs All Bran Original that is Safek Chodosh.

**⌘ London Federation of Synagogues** advised that to their knowledge all crackers and biscuits produced in Europe are Yoshon. Obviously not all of these are under the hashgocho of the Federation. All packaged products with the Federation's KF symbol are always Yoshon, whether sold in Israel or elsewhere.

**⌘ Morning Flakes oats cereal** sold in Israel and Europe is Yoshon under the hashgocho of the Manchester (England) Beth Din.

**⌘ Quaker cereals** sold in Israel have the same codes and dates as the listing for the same items sold in the USA, as stated in Section 4.1 of this Guide. Quaker oats cereals made in England and sold in Israel and elsewhere in the world are Yoshon, under the hashgocho of the London Federation of Synagogues, if there is a KF symbol on the package. (Note: Some people in Israel use the term "Quaker" to refer to all hot oats cereals that need to be cooked, regardless of the company which manufactures it. In this Guide,

the term Quaker is used to refer only to products made by the Quaker Company, including cereals eaten with cold milk.)

⌘ **Rabbi O. Y. Westheim/Landau.** Everything under his hashgocho is always Yoshon everywhere in the world. This includes Bobbie's fish products sold in Europe.

⌘ **Speedycook Oats** manufactured in Ireland are Yoshon under the Hashgocho of the Manchester Beis Din.

IMPORTANT NOTE: As mentioned above, food produced in Israel itself under reliable hashgocho is always Yoshon. However, we have ample evidence that many packaged goods are being imported to Israel with no concern about the possibility that they may be Chodosh. Importers often paste their own labels, in Hebrew on such packages, describing the foreign kashrus organization that vouches for the kashrus, but not the Yoshon status, of the contents. The general public in Eretz Yisroel is more strict about Chodosh than the majority of people in Chutz L'Aretz. Nevertheless, this public is often not aware that some of the hashgochos in Chutz L'Aretz are not usually actively avoiding Chodosh. We are warning our brothers and sisters in Eretz Yisroel about this problem and we urge our readers to also spread the word.

## 4.2.18 Elsewhere in the world

### **Antwerp, Belgium**

The locally grown wheat is always Yoshon. The bakeries use local wheat flour for breads and challahs, making these Yoshon. Some of the bread-like cakes, such as yeast cakes may be Chodosh. For pasta, ask for Israeli products, which are always Yoshon. Barley that is locally grown is Yoshon. However, apparently, during some years, most of the barley used for cholent comes from North America and may be Chodosh. For up to date information, contact Rabbi S. Golovenshitz, 011-323-230-8537. We are not aware of any facilities producing Yoshon under hashgocho in Antwerp.

### **Canada**
